

Forklift Spreader Bars

Forklift Spreader Bars - ELME has been proudly operating since the year 1974, becoming the biggest independent spreader producer around the world. They are a dedicated manufacturer of spreaders meant for a lot of various applications like for instance the trailers, handling of containers and swap bodies.

Engineering is done in house by using all the newest CAD systems and FEM tools. The ELME business presently employs more than one hundred twenty five workers. Their spreaders are supplied to reach stackers, straddle carriers, lift trucks, gantry, quayside and ship-to-shore cranes around the world.

The product collection of ELME includes numerous spreaders intended for a variety of container and trailer handling operations. Several of their inventory consist of: Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes plus a wide variety of additional parts.

ELME production and manufacturing is performed in a highly automated purpose built factory. In the year 2008, they created over one thousand one hundred fifty spreaders by means of utilizing high quality components to guarantee dependability and high standards while offering reasonable prices. Major characteristics of ELME consist of design simplicity, market reaction and ground-breaking modular spreader concept.
