

## TCM Forklift Parts

TCM Forklift Parts - In the global business of material handling, forklifts play an important role for transporting industrial goods. Primarily innovated as industrial vehicles in the 1930s in the United States, lift trucks gained popularity after World War II in the 1940s. Becoming a reliable and efficient means to material handling solutions, the practicality and need of these machines spread internationally.

Originally established as Toyo Carrier Manufacturing Company Limited, in the year 1949, the company was later renamed Toyo Umpanki Co. before becoming known as the TCM Corporation. Established by Mr. N. Niwa manufactured Japan's very first lift truck. Through the years, TCM forklifts have become an international leader in forklift manufacturing and have built a solid reputation in the trade. TCM started constructing lift truck manufacturing locations outside of Japan in the 1980s and is currently engaged in lift truck manufacturer at three foreign factories in the United States, Europe and China.

With more than fifty years of accumulated expertise and technology, TCM has been proudly making numerous models of industrial lift trucks, making their models recognizable all around the world. With a strong and energetic staff, TCM has been able to constantly work towards becoming a future leading material handling company.
