

Concrete Hopper

Concrete Hopper - The self-dumping hopper attachment could automatically start to both unload and release whenever the bumper release touches the side of a dumpster. After unloading is finished, the hopper can return to original upright and locked position. This piece of machinery is even available along with a cable which allows operation from the seat of the lift truck to be able to have the option of manually dumping the hopper. There is a locking chain provided to be able to secure the hopper to the fork truck. This product is constructed with reliable and consistent robotic welds for maximum strength. The lift truck dumping hopper also has a blue powder coat finish to be able to maintain durability.
